

12 May 1961

MEMO FOR: Mr. Echols

SUBJECT: IG Report on Training

1. We have notified appropriate offices within Personnel of assignments of action responsibilities in connection with recommendations approved by the DDCI in his review of the IG's 1960 report on Training.

2. Recommendation No. 23, which concerns improving the status of DD/I and DD/S JOT's, does not as yet seem to call for specific actions but does impose on the Director of Personnel the responsibility of taking steps, with the Director of Training, to eliminate prejudices which may have arisen. At least until some more specific proposal has been put forward, we have not set this recommendation up as an OP work project or made any assignment within OP for action. If you agree, we will simply carry it as an item for which you are responsible and make an appropriate assignment at such time as some specific program is to be proposed.
